Cattle Meat Solutions Cattle buyer Dustin Schaf said,
"Best set of Angus Cattle I've bought!"

Please take time to look over the information on the next page. We offer: FREE Feed until delivery, FREE delivery, Volume Discounts and 1st Breed Season Guarantee.

2009 was a life changing year for us. We purchased the Historic Buckhorn Springs Ranch at Keystone, Nebraska. Kristy and I moved up to the ranch in July. Ty has moved up to the ranch also and he now has his own house. Ty is in his element with all of the hunting this ranch has to offer, not to mention the cattle work that he enjoys. Ty is going to stay here this winter and help me calve and AI, he will go back to college in Laramie, Wyoming next fall. Tanner moved from a rental house into our home at Lamar. Tanner enjoys farming, especially planting corn and all of the HI Tech GPS stuff. Someone has to keep Grandpa Gunner lined out! Dad and Tanner enjoy each other's company.

This ranch has some really nice meadows so the cows will stay here year round. The bulls will still be fed at our feedlot at Lamar where Tanner has the help of Bud Orvis. Bud and Carrie Orvis are going on their third year with us. Kristy is getting cabin fever and wants to be on horseback since Ty and I have been getting ready for calving, moving the calving barns and building calving pens. Kristy has had to do all of the advertising and 90%, well maybe 99% of the catalog by herself. But I still say how high when she says jump!

God has blessed me with the wonderful family and father to help me achieve my goals. I feel this ranch is like heaven on earth. Please come visit us and see the mother's to the bulls we are selling. We would again like to thank you, our valued customer's. We enjoy your friendship in the cattle business. Kristy, Tanner, Ty and I would be honored to have you as our "guest" sale day. If you have any question's about the bulls, don't hesitate to call. Be sure to join us for lunch!

TJ, Kristy, Tanner and Ty

WE DO NOT CREEP FEED

Bull's have been conditioned on a bull growing ration NO CREEP FEED. We do not creep feed. I believe fertility, soundness and a bull's ability to hold up through the breeding season is critical. Bull's that are fed too hard too long have trouble accomplishing this. I also believe evaluating the mother's maternal value is very important. She need's to calve, rebreed and maintain condition while raising a calf. The older more aggressive calves control the creep feeder's, therefore not allowing a true evaluation of a calf's performance or dam's ability to prove her contribution on her own.

COMPLIMENTARY NOON MEAL SERVED

WE DO NOT CREEP FEED

Bull's have been conditioned on a bull growing ration NO CREEP FEED. We do not creep feed. I believe fertility, soundness and a bull's ability to hold up through the breeding season is critical. Bull's that are fed too hard too long have trouble accomplishing this. I also believe evaluating the mother's maternal value is very important. She needs to calve, rebreed and maintain condition while raising a calf. The older more aggressive calves control the creep feeders, therefore not allowing a true evaluation of a calf's performance or dam's ability to prove her contribution on her own.
